

Background

- What knowledge does this paper assume?
- Are there any concepts/terms that we did not yet define this week?

Aim(s) of the paper

- Summarize the aim(s) of the paper in maximum 3 sentences.

Methods

- What data is the paper working with?
 - What type of data is it?
 - How was it acquired (by which technique)?
- Which analysis technique is used?
 - Is it well suited? Why?
 - Would other analysis techniques have been useful?

Results

- What key result does each result figure/figure panel convey?

Applications

- What will this study be useful for?
- Is it expected to have impact? In which way?

Limitations

- What limitation(s) are acknowledged by the authors?
- Are there any other limitations you see that were not mentioned?
